this book analyzes the formation of a mass anarchist movement in spain over the turn of the twentieth century in this period the movement was transformed from a dislocated collection of groups and individuals into the largest organized body of anarchists in world history the anarcho syndicalist national confederation of labour confederación nacional del trabajo cnt at the same time anarchist cultural practices became ingrained in localities across the whole of spain laying foundations which maintained the movement s popular support until the end of the spanish civil war in 1939 the book shows that grassroots print culture was central to these developments driving the development of ideology and strategy broadly defined as terrorism education and workplace organization and providing an informal structure to a movement which shunned recognized leadership and bureaucracy this study offers a rich analysis of the cultural
